T25

Combining Technology and Comfort! 🚀🏠

- ◆ Future Design: The popular T25 model from Premium Home features an aviation aluminum shell, angular design, and line coating, creating a modern and aesthetic look. Its diamond-shaped, floor-to-ceiling large windows bring together technology and futurism.
- ◆ Breathtaking View: With a horizontal layout offering a wide field of view, the T25 is equipped with a panoramic sunroof to maximize natural light.
- ◆ Comfortable Living Space: The bathroom with wet and dry separation ensures maximum comfort. The T25 can be adapted to various room types with high expansion capacity, including king rooms, double rooms, and studios.

HERA HOUSE

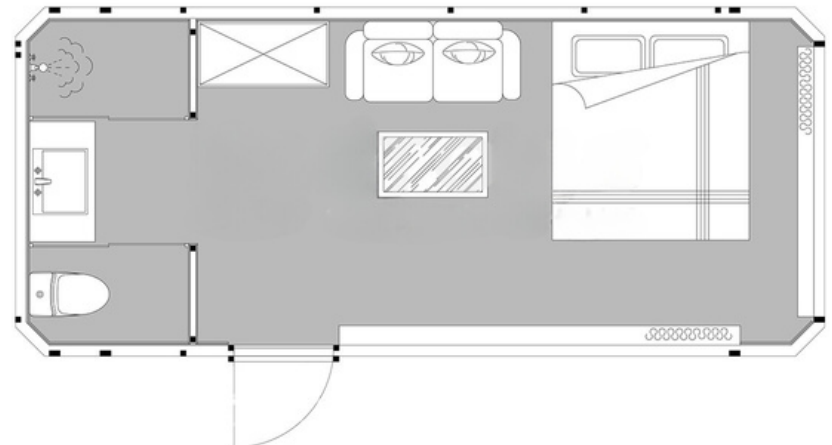

☀️ Features of Hera House T25:

Panoramic Sunroof offering a spacious and airy atmosphere.
Large floor-to-ceiling windows for abundant natural light.
Wet and dry separation bathroom for added comfort.
High expansion capacity allows for a variety of room types.

🌍 Various Uses of Capsule Homes:

Developed by Premium Home, these capsule homes can be set up easily in high mountains, dense forests, deserts, and meadows. They are designed to blend seamlessly with nature while preserving the environment, offering a perfect living space in harmony with the surroundings.

HERA SCENARIOS

Hera offers solutions that go beyond traditional boundaries. Our systems are not limited to areas such as housing or hotels; they offer a wide range of uses in different sectors.

Municipality Service Points

Hera Home capsules can be used as municipality service points, overcoming space constraints in city centers. They can serve with functions such as information desks and citizen service units that provide easy access to citizens.

Stadium Info Station

Hera Home capsules can be used as information stations, ticket sales points or product sales areas in stadiums, exhibition areas and multi-purpose venues. They also offer effective solutions in museums, cinemas and shopping malls.

Emergency Stations

Hera Home capsules can serve as emergency stations in big cities. With functions such as hospital, police or fire station, it provides a quick solution to emergencies.

School Unit

Hera Home capsules, which can be used as temporary education areas and school units, offer portable and efficient education environments to students.

Tourism and Food Services Beach Bar

It can be used as a beach bar in outdoor areas such as beaches or festivals. Thanks to its high mobility, it can be quickly set up at events.

The capsules, which are suitable for use in outdoor activities such as beach bars, restaurants and cafeterias, can be quickly set up and put into use. They offer customers a unique experience.
